STAT

With respect to Thursday's hearing, I pointed out that Bill Colby would be the witness and that we were not inclined to present for public hearings witnesses other than the Director or the Deputy Director. We would, however, during executive sessions have specialists available to respond to questions. Field said that Pike would doubtless be unhappy with such a position and that if this is where we stood perhaps Bill Colby should take it up with Congressman Pike.

We should keep in mind that the attempt to put together a hearing for this Thursday is a last minute effort on the part of the staff growing out of Pike's insistence that the hearings begin this week and their late recognition that covert procurement is not a suitable topic at this point (they have postponed it until October ). Field is quite apologetic and we should not lose the opportunity to point out to Pike that you just cannot rush into these things the way they appear to be doing.

Field also asked if certain of the post mortems that they have can be sufficiently sanitized so that they may be put into the public record.
